GO·STEM

Greater Oregon Science Technology Engineering & Math

What is GO STEM?

A regional partnership cultivating a community that values STEM learning, prepares youth for successful STEM careers, and builds pipelines and pathways to meet workforce needs.

STEM WEEK OREGON
MAY 4-12, 2019

Inspire the Future

Are you leading a STEM activity this week?

[Register it this week on the STEM Oregon Map to win!](#)

Congratulations to Nancy McDonald from Imbler School District -- she registered her class activity and won a Garmin Vivo!

K-12 Student Challenges

To celebrate STEM Week and encourage students to participate in STEM, GO STEM is offering 3 different challenges at each school level.

Each challenge can be completed in <1 hour. They are designed for after/out of school completion by students (independently or in a group).

Every student who completes a challenge by May 19 will be entered to win one of our amazing STEM prizes! (robots, circuits, learning games/toys, and more!)
